

Expeditionslogg från Parkalompolo 20 okt - 4 nov 1996, PAX2.

Deltagare: RON, Roland Nogell (20 - 31 okt) NRD 535, Lowe 225
SW, Stefan Wikander (20 okt - 4 nov) NRD 515, AOR AR7030
A, Sigvard Andersson (20 okt - 4 nov) Drake RR3, AOR AR7030

Antenner: 1100m 250° (ojordad) mot Sydamerika, Bortre Asien, Australien
600m 296° (jordad) mot ostkust-NA.
600m 305° (jordad) mot stora sjöarna.
800m 326° (jordad) mot västkust-NA.

Vädret var mulet och disigt nästan hela tiden; vi såg solen bara ett par dagar. Ca 5 cm snö när vi kom upp, men den smälte bort eftersom temperaturen låg över noll första veckan, (en dag hade vi nästan 7 grader!) och det regnade vid några tillfällen, speciellt två nätter. Under andra veckan var temperaturen just under noll och det kom åter snö.

Myren var frusen. Det var alltså lätt att arbeta med antennerna.

MEXICO. Det gick mexikansk musik lite här och var på bandet, men den enda nedskrivna i loggen blev:
