- 3.1 Evert and Ben arrived in the evening of the 3rd after some problems with the luggage from Stockholm to Kiruna. Driving the rented car on frozen winter roads was a positive experience.
- 4.1 Not much listening. Most of the day spent on a trip to Kiruna.
- 5.1 Good listening at times. Most stations were wiped away suddenly around 1400. Hawaii was heard for short periods on some frequencies.
- 6.1 Not as good as the day before but still NA heard all day.
- 7.1 Same type of conditions as the day before. Ben started his new career as a cross country skier by following Bosse out in the forrest to check an antenna. After a couple of close inspections of the snow depth he returned safely after almost 2 km of skiing. The PAX58 and PAX57 crews were invited to Rolf and Elisabeth for a traditional reindeer meat dish with mashed potatoes and lingonberry jam and other local specialities. Back in the QTH the sauna had reached the right temperature for a sit-in.
